Storm Doors

Designer Patio Door systems

are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet™ and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

Patio Door Standard Features

A keyed Schlage® flair handleset with a Maximum Security thumbturn deadbolt is included. Choose from bright brass, antique brass, satin nickel or aged bronze finish. Optional Lifetime finish available.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. Fiberglass screen is standard. Heavy-duty fiberglass or aluminum screen is optional.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame reduces binding, creating effortless operation. Screen frames are available in all 16 colors!

Our Sahara™ heavy-duty extruded sill has a 1½" wide thermal barrier oak-like riser that will not rot or warp and is non-conductive. Also available with an anodized brass or bronze finish.

Bronze threshold comes with a color coordinated riser.

Custom Widths & Heights!

Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8" increments.

Standard Sizing Information

Downsized (Standard) Patio Doors						Full Size Patio Doors						
Patio Unit Sizing	Patio Width	Unit Size	Rough Opening	Brickmold to Brickmold*	Patio Height	Patio Width	Unit Size	Rough Opening	Brickmold to Brickmold*	Patio Height
